

SUBJECT: New Product Launch
DATE: June 26, 2024
PRODUCT: Universal Vent Cap

Duravent Group is pleased to announce the launch of the new Universal Vent Cap to wholesale customers.

This cap is self-centering and has an adjustable design for a neat, quick and easy installation. Created for roof vent, flue, and B-vent installations, this new design supports venting a strong draft, and is available in three sizes.

Constructed from aluminum for rust and corrosion resistance, the cap will also prevent rain, debris, and most pests from entering the vent.

Note: not for use on solid fuel flues
